AKASH K C

Computer Science & Design Student — Software Development
+91 89044 63024 — akashchikkasvi@gmail.com — linkedin.com/in/akash-k-c-8111b0312
Bengaluru, Karnataka

Professional Summary

Computer Science and Design student with hands-on experience in software development and quality assurance. Experienced in web applications, testing, and AI-based projects, with a strong foundation in programming and computer science fundamentals. Interested in software engineering and full-stack development.

Experience

Software Development Engineer Intern – UNKNWNAI PRIVATE LIMITED Mar 2026 – Present
Software Development & Quality Assurance Bengaluru, Karnataka

- Developed web application features using React, TypeScript, Node.js, and REST APIs.
- Contributed to frontend and backend development, API integration, database changes, and bug fixing.
- Performed unit, functional, regression, and end-to-end testing to improve application reliability.
- Used Git and Pull Requests while collaborating with the development team in an Agile environment.

Education

K S Institute of Technology (KSIT) Sep 2023 – Jun 2027
B.E. in Computer Science and Design Bengaluru, Karnataka

Sri Mahayogi Vemana P U College Jul 2021 – Mar 2023
Pre-University Course (PUC) – PCMB Harihara, Karnataka

Technical Skills

Programming: Java, Python, JavaScript, TypeScript
Web: HTML, CSS, React, Node.js, Express.js,
Databases: SQL, PostgreSQL, Firebase Realtime Database
Computer Science: Data Structures & Algorithms, Object-Oriented Programming, SDLC
Testing: Manual, Functional, Regression, Smoke, API, End-to-End Testing, Playwright
Tools: Git, GitHub, Postman, VS Code

Projects

AI-Based Home Energy Management System – Major Project *AI, IoT, Reinforcement Learning*

- Developed an AI-based home energy management solution integrating IoT, occupancy detection, environmental monitoring, and appliance control.
- Explored reinforcement learning for adaptive energy management using temperature, occupancy, appliance, and energy-consumption data.

Leave Management System *React, Vite, Node.js, Express.js, Firebase*

- Developed a full-stack leave management application with React/Vite, Node.js/Express.js, and Firebase.
- Implemented Firebase Realtime Database and Authentication for application data and user authentication.

Waste Detection Using AI *Artificial Intelligence*

- Developed an AI-based solution for waste identification and technology-assisted waste management.

College Enquiry Assistant Chatbot *Artificial Intelligence*

- Developed an AI-based chatbot for providing instant responses to common college-related enquiries.

Achievements

AIKYAM Hackathon 2025 – Runner-Up (2nd Place) – 24-hour Hackathon, JSS Academy of Technical Education, Bengaluru; Project: Waste Detection.

Publication

A Survey on AI-Based Home Energy Management System – International Scientific Journal of Engineering and Management (ISJEM), June 2026. DOI: 10.55041/ISJEM08000.

Certifications

Google Cloud Arcade Challenge (2025) — Python Programming and Data Structures
